the world health organization who was established in 1946 as an essential step in the construction of a postwar system of international cooperation the authors a former legal counsel of who and senior official of who s legal office have written a thorough and systematic review of who in its changing historical and political context aiming in particular at practitioners and scholars without a specific medical background

a history of the world health organization covering major achievements in its seventy years while also

highlighting the organization s internal tensions this account by three leading historians of medicine examines how well the organization has pursued its aim of everyone everywhere attaining the highest possible level of health

the world health organization s history spans more than six decades the past twenty years has been a particularly busy period in the organization s development given the transition from international to global health cooperation and thus the need to adapt to major changes in its operating environment consequently the who has been a direct part of new institutional arrangements and has shared in increased funding to provide for global health it has also had to adapt its activities and programs in response to rival initiatives leading to many changes not only to the names of specific parts of the who but also to the nature of their activities this second edition explores the organization s institutional complexity back cover

the global rise in pandemics most recently covid 19 and other health challenges some of which are due to climate change have imposed significant challenges on the healthcare systems in economies around the world thus this book deals with an issue that is very timely and relevant not just in africa but globally it critically assesses healthcare reforms in ghana under the fourth republic since 1993 although it focuses on ghana s national health insurance scheme of 2003 the book instructively goes beyond this program the book argues that although ghana is a bellwether of healthcare reforms in africa its healthcare initiatives are still far from the service haven of healthcare as a human right themes that animate the book s argument include the need to translate human rights law such as the right to health into practical policies that work for ordinary citizens key highlights of the book include an increased accent on health as a human right emphasis on comparative analysis in healthcare studies and the formulation of a four hallmark framework embedded in economics law politics and human rights to act as a guide for assessment of healthcare reforms in africa in particular and ghana more specifically using ghana as a case study and analytical window into the world the book offers a valuable and timely resource for academics students and policymakers across the disciplines of development and healthcare economics law public policy political science sociology and african and caribbean studies as well as in various fields in health science

includes subject section name section and 1968 1970 technical reports

this text discusses the issues of geographical spread of human communicable diseases split into six chapters it tackles surveillance quarantine vaccination and forecasting for disease control a wide selection of representative maps and diagrams are used to illustrate the ideas explored

this illustrated brochure is a short introduction to the work and activities of the world health organization to improve the health of the world population

includes entries for maps and atlases
